

Power/Lighting Equipment Trolley

No. 903 500 · POWER/LIGHTING TROLLEY

The EMDE Power/Lighting Equipment Trolley is used to hold various lighting equipment in variable levels and boxes. The trolley is made of aluminum and has two steering / braking and two fixed wheels.

Thanks to their aluminum rim with solid rubber tires, the wheels have hardly any rolling resistance and, despite the weight, guarantee easy mobility of the car even in rough terrain. The independent wheel load is 400 kg.

Loading option:

- » Power generator 6.5 KVA
- » 2 cable dispensers 230 V
- » Powermoon Twinlight with accessories
- » Tripod for Powermoon
- » Fuel canister etc.
- » Rollcontainer lighting available according to customer requirements, additional storage for additional loading.

Licences and guidelines:

- » Complies with GGVSE (German regulations for the transportation of dangerous goods by road and rail)
- » Complies with "Guidelines for the design and use of non-powered trolleys by fire services" (Expert recommendation No. 2/2014 from the DFV (German Fire Service Association))

Options available at extra charge:

- » Kill switch (pull) (No. 950 999)
- » Kill switch (push) (No. 950 998)
- additional bearings to accommodate further loading

TECHNICAL DATA

Construction	aluminium profile
Weight (empty)	approx. 78 kg
Dimensions (l x w x h)	approx. 1600 x 800 x 1100 mm
