

Respiratory protection

## No. 900 500 · BREATHING APPARATUS TROLLEY AG-8-7

**The EMDE TRANSPORT TROLLEY, model AG-8-7 is used for the safe transportation of up to 8 sets of breathing apparatus and 7 x 6 l replacement air cylinders. The compartments for the replacement air cylinders are made from scratch-resistant plastic to guarantee good protection of the cylinders during storage.**

The trolley is fitted with two steering/braking wheels and two fixed wheels. The wheels have Aluminium rims and solid rubber tyres to ensure the trolley has minimal rolling resistance and is easy to manoeuvre despite its weight even on rough ground. The single wheel load is 400 kg. The trolley doors can be locked. The 4 retaining rods are secured at both sides and prevent the air cylinders slipping during transportation.

**The trolley is fitted with:**

- » Lockable doors
- » 2 handles
- » 7 compartments for replacement air cylinders

**Licences and guidelines:**

- » Complies with GGVSE (German regulations for the transportation of dangerous goods by road and rail)
- » Complies with "Guidelines for the design and use of non-powered trolleys by fire services" (Expert recommendation No. 2/2014 from the DFV (German Fire Service Association))

**Options available at extra charge:**

- » Kill switch (pull) (No. 950 999)
- » Kill switch (push) (No. 950 998)
- » Rubberised shelf as work surface (No. 905 505)

### TECHNICAL DATA

Construction	aluminium profile
Weight	approx. 78 kg
Dimensions (l x w x h)	approx. 1200 x 800 x 1150 mm
Colour	hammer finish painted blue or according to customer wishes
